

Practice Management Integration

Order Direct to Your Suppliers with Ease

VisionWeb and EMRlogic Systems, Inc. have integrated VisionWeb's online ordering service with the activEHR™ system. This solution allows you to order electronically to your suppliers, without having to access the VisionWeb site, and it virtually eliminates the need to phone or fax your suppliers for order processing. Your practice will save time and reduce duplicate data entry, while gaining the benefits of:

- Direct access to suppliers on the VisionWeb network
- Custom catalogs and error checking to improve order accuracy
- Up-to-date order tracking to manage customer expectations
- Improved turnaround time on orders placed electronically
- Ongoing technical support and customer service

Submit Insurance Claims with a Click

activEHR™ is also compatible with VisionWeb for insurance claim filing. You simply upload claim files created in your practice management system and send them to your payers through VisionWeb, without having to re-key claim information. You will also have access to features like eligibility checking, claim tracking, reporting, and ERA.

Save Time and Reduce Duplicate Data Entry

Getting Started

activEHR™ clients seeking the ability to order via the VisionWeb integration should contact EMRlogic Systems Technical Support at **(866) 623-5644**.

Those interested in insurance processing should contact a VisionWeb Enrollment Consultant at **(800) 590-0873** to learn more.
