Order Direct to Your Suppliers with Ease

VisionWeb and MSF Computing, Inc. have integrated VisionWeb's online ordering service within the IFILE, CFILE, and Vision Plus systems. Using the integration, you can place orders to your suppliers without having to access the VisionWeb site or re-key order information into another system. Your practice will save time and reduce duplicate data entry, while still gaining the benefits of VisionWeb's online ordering service, including:

- Direct access to suppliers on the VisionWeb network
- Custom catalogs and error checking to improve order accuracy
- Up-to-date order tracking to manage customer expectations
- Improved turnaround time on orders placed electronically
- Ongoing technical support and customer service

Submit Insurance Claims with a Click

IFILE, CFILE, and Vision Plus are also compatible with VisionWeb's insurance transaction processing service. Simply upload claim files created in your system and send them to your payers through VisionWeb, without having to re-key claim information. You will also have access to features like eligibility checking, claim tracking, reporting, and ERA.
