

# Practice Management Integration

## Order Direct to Your Suppliers with Ease

VisionWeb and Abeo Solutions, Inc. have integrated VisionWeb's online ordering service with Crystal PM. This solution allows you to place orders to your suppliers electronically, right from within your practice management system, virtually eliminating the need to phone or fax your suppliers for order processing. Your practice will save time and reduce duplicate data entry, while gaining the benefits of:

- Direct access to suppliers on the VisionWeb network
- Custom catalogs and error checking to improve order accuracy
- Up-to-date order tracking to manage customer expectations
- Improved turnaround time on orders placed electronically
- Ongoing technical support and customer service

## Submit Insurance Claims with a Click

Crystal PM is also compatible with VisionWeb's insurance transaction processing service. Simply upload claim files created in Crystal PM and send them to your payers through VisionWeb, without having to re-key claim information. You will also have access to features like eligibility checking, claim tracking, reporting, and ERA.
